Scroll Styles....

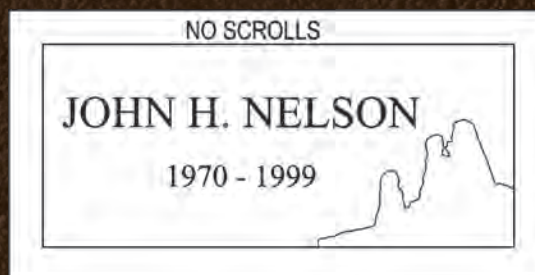

If you order unicast scrolls and one person is not deceased, that scroll will automatically be made a loose scroll at an additional charge.

This layout with one unicast and one drill and tap leaves the option open to add the other scroll when required as well as the option to have full month, day, year dates.

This layout with tri-scrolls is the most common type of layout. Tri-scrolls are cast with the memorial and include the given names and at least the birth years. The final dates can be added later and are no extra charge if ordered in the current or last year.

All inscription on a memorial background.
